

## Carpet Making: Inspiring, service-oriented and tailor-made

A modern lounge interior featuring a large window with a black frame. The window looks out onto a building with a glass facade and some trees. Inside, there is a blue sofa, two small round tables with silver bases, and a purple armchair. The floor is covered with a patterned rug. The text "Carpet Making inspires" is overlaid on the top left of the image.

# Welcome to Carpet Making!

As interior designer, project designer or interior decorator it is your mission to turn 'bald' premises into attractive spaces. To turn a house into a home and an office into an inspiring and agreeable place to work. Carpet Making helps you to succeed in your mission.

We make tailor-made carpets out of wall-to-wall carpeting. Our profound knowledge, skills and experiences enable us to offer you a carpet that always answers the style, atmosphere and budget you have in mind. We are strong in custom-made manufacturing which means we manufacture the most extraordinary styles and shapes of the highest quality. Welcome to Carpet Making!

**"Carpet Making has a pleasant way of doing business. They are reliable, flexible, creative and goal-driven."**

**Project: Louis Vuitton**

# Information and inspiration

Carpet Making offers you tailor-made carpets out of wall-to-wall carpeting. But that's not our sole strength. When looking for a special carpet, we can inspire and inform you. We figure as your sparring-partner. We think along and help you create a specific atmosphere or spot. We like to share our elaborate knowledge of technical possibilities with you. We are familiar with your branch and know your goals and thus can help realize them. Moreover we are known for our pleasant way of doing business. We are reliable, flexible, creative and goal-driven.

## Different kinds of edge finishing

Starting point is the atmosphere you want to create. From this point of view we can offer you different kinds of edge finishing. It all depends on the desired look and the practical conditions. Since we strive for high-quality carpets, we advise you to choose blind wrapping, wrapping with a (visible) leather or cotton carpet frame or volume carpet whether or not with a high-quality antiskid carpet underlay.

Each way of edge finishing has its own look: from natural to more luxurious and exclusive.

Scalloping is also possible. It is our pleasure to advise you upon the way of edge finishing which suits your situation the most.

**"We translate your ideas into a carpet that reflects the appropriate atmosphere in every detail."**

# Strong in goods made to measure

Carpet Making offers you tailor-made carpets. From small to very big, from isle-shaped to elongated. Perhaps you want an isle-shaped spot on the floor? A unique style for a specific spot? Then surely you have a specific carpet in mind. Carpet Making takes the challenge to translate your ideas into a carpet that reflects the appropriate atmosphere in every detail. Regardless whether you want a plain and simple rug, a mosaic carpet or a unique carpet you have designed yourself. All is possible! We cut the carpet into the shape you want. Moreover we like to stray off the beaten tracks to find the optimal solution along with you.

## Quick, professional and within the budget

When being responsible for a small or large project, it feels good to work with professional partners who share your responsibility. A partner like Carpet Making. We always stick to the arrangements made and make sure a professional and quick delivery takes place. Together we look at your wishes, schedule and budget in order to translate all of this into a clear offer. We stand for a personal service. If necessary, we lay the carpet on site ourselves. In other words, we want to unburden you!

**"As to all projects we  
work accurately and  
communicate clearly with  
clients and partners."**

**Project: Trouwzaal Arnhem**

## Focus on quality

Whatever we do, we want to do it properly. Therefore we leave nothing to chance. When dealing with larger projects for example, we provide an additional verification stage during the working process. First we manufacture a rough version of the carpet. Then we measure it on site. It avoids unpleasant surprises. Moreover this procedure ensures the carpet will answer the purpose as discussed with you.

It goes without saying that we work accurately and communicate clearly with clients and partners even when smaller projects are involved: delivering a high-quality product always comes first!

What ideas do you have?
